Goodwill 
NEUROREHAB SERVICES 

Our Services

Goodwill NeuroRehabilitation Services offer the most comprehensive rehabilitation services in Maine, specializing in the treatment of individuals who have a neurological impairment.

We serve individuals who have the following diagnoses:

- ★ Traumatic Brain Injury
- ★ Multiple Sclerosis
- ★ Stroke
- ★ Parkinson's Disease
- ★ Mild Cognitive Impairment
- ★ Brain Tumors
- ★ Cerebral Palsy
- ★ Toxic Exposure
- ★ "Chemo-brain"
- ★ Anoxia/Hypoxia

Paying for Services

We accept most insurance plans including:

- ★ MaineCare**
- ★ Medicare B
- ★ Anthem, Cigna, Aetna and other commercial insurers
- ★ Workers' Compensation
- ★ Private Pay

** The regulations for MaineCare Rehabilitative Services require a diagnosis of Acquired Brain Injury.

CARF Accredited Quality

Our highly successful treatment model includes person-centered planning, a comprehensive team, services offered in the clinics and services in individuals' homes and community.

At Goodwill NeuroRehabilitation Services, individuals get the physical, cognitive and psychosocial training they need to rebuild their lives.

Our team includes the following skilled clinicians:

- ★ Psychiatrist
- ★ Neuropsychologist
- ★ Registered Nurse
- ★ Case Manager
- ★ Physical Therapist
- ★ Occupational Therapist
- ★ Speech Language Pathologist
- ★ Social Worker
- ★ Peer Support Technician
- ★ Therapeutic Recreation Specialist
- ★ Rehabilitation Technician

Our Clinical Director/Neuropsychologist and Medical Director/Physiatrist provide ongoing direction, supervision and education to the individual, their family and the treatment team in order to better address the needs of each individual.

Every person who receives our services is assigned a Case Manager. The Case Manager is a strong advocate who works to ensure each person's satisfaction. In addition, the Case Manager coordinates the individual's services and communicates with outside community contacts as needed.

In a recent accreditation, the Commission on Accreditation of Rehabilitation Facilities called our programs an international model for quality. Our programs earned the highest endorsement from CARF, a three year accreditation.

A comprehensive treatment team, excellent functional outcomes and superior satisfaction are the hallmarks of our programs.
